The PI should discuss requests with their Chair in time to incorporate into the teaching schedule. The PI should route this form to their CAO to determine cost for a replacement instructor and the savings amount followed by their financial analyst for contract or grant account verification. If approved by the Chair and Dean (or Dean Delegate), confirmation copies will be retained in the HSSoE Personnel Office and returned to the PI and Chair.

Requests must be processed in advance in accordance with departmental deadlines for such requests. Because of time limits for the transfer of extramural funds, requests will not be approved retroactively and must be consistent with academic quarter payroll dates, as follows: Fall Quarter – Jul. 1-Oct. 31 Winter Quarter – Nov. 1-Feb. 29 Spring Quarter. – Mar. 1-Jun. 30

The buyout cost per course will be the higher of (i) 6.25% of the 9/12 annual salary, which is 18.75% of the monthly payments during the buyout quarter or (ii) the cost for replacement instructor. Buyouts will be limited to 2 per academic year.

The PI will be expected to complete their full complement of research and service commitments during the academic year. Compensated effort from extramural funds may not exceed 50% in a given quarter or in a given academic year.

Via the Payroll Certification System, the PI is expected to certify the appropriate effort expended on research activities funding their salary during the specified period.
